## Safety Data Sheet

Copyright,2023, Meguiar's Inc. All rights reserved. Copying and/or downloading of this information for the purpose of properly utilizing Meguiar's Inc. products is allowed provided that: (1) the information is copied in full with no changes unless prior written agreement is obtained from Meguiar's Inc., and (2) neither the copy nor the original is resold or otherwise distributed with the intention of earning a profit thereon.

| Document group: | $41-7602-0$ | Version number: | 1.01 |
| :--- | :--- | :--- | :--- |
| Revision date: | $10 / 11 / 2023$ | Supersedes date: | $27 / 09 / 2023$ |

This Safety Data Sheet has been prepared in accordance with the REACH Regulation (EC) 1907/2006 and its modifications.

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Beyond Ceramic Coating M888

## Product Identification Numbers

14-1001-4813-0

7100322751

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

## Identified uses

Automotive.

1.3. Details of the supplier of the safety data sheet<br>Address: Meguiars United Kingdom Limited, 3 Lamport Court, Heartlands, Daventry, Northants, NN11 8UF<br>Telephone: $\quad+44$ (0)870 2416696<br>E Mail: info@meguiars.co.uk<br>Website: www.meguiars.co.uk

### 1.4. Emergency telephone number

Emergency medical information: 8am-10pm (seven days) contact National Poisons Information Centre, Beaumont Hospital, Dublin 9 DOV2NO, Ireland. Telephone Number: +353 (0)1 8092166

## SECTION 2: Hazard identification

### 2.1. Classification of the substance or mixture

## CLP REGULATION (EC) No 1272/2008

The health and environmental classifications of this material have been derived using the calculation method, except in cases where test data are available or the physical form impacts classification. Classification(s) based on test data or physical form are noted below, if applicable.

## CLASSIFICATION:

Flammable Liquid, Category 3 - Flam. Liq. 3; H226
Skin Corrosion/Irritation, Category 2 - Skin Irrit. 2; H315
Specific Target Organ Toxicity-Single Exposure, Category 3 - STOT SE 3; H336
Hazardous to the Aquatic Environment (Chronic), Category 3 - Aquatic Chronic 3; H412
For full text of H phrases, see Section 16.

### 2.2. Label elements <br> CLP REGULATION (EC) No 1272/2008

SIGNAL WORD
WARNING.

## Symbols

GHS02 (Flame) |GHS07 (Exclamation mark) |

Ingredients:

| Ingredient | CAS Nbr | EC No. | \% by Wt |
| :--- | :---: | :---: | :---: |
| SILANE, TRIMETHOXY(2-METHYLPROPYL)- | $18395-30-7$ | $242-272-5$ | $10-30$ |

## HAZARD STATEMENTS:

H226
H315
H336

H412

## PRECAUTIONARY STATEMENTS

## Prevention:

P210
P261G

Response:
P370 + P378

Flammable liquid and vapour.
Causes skin irritation.
May cause drowsiness or dizziness.
Harmful to aquatic life with long lasting effects.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid breathing vapours or dust.

In case of fire: Use a fire fighting agent suitable for flammable liquids such as dry chemical or carbon dioxide to extinguish.
$77 \%$ of the mixture consists of components of unknown acute oral toxicity.
$77 \%$ of the mixture consists of components of unknown acute dermal toxicity.
$77 \%$ of the mixture consists of components of unknown acute inhalation toxicity.
Contains $77 \%$ of components with unknown hazards to the aquatic environment.

### 2.3. Other hazards

Contains a substance that meets the criteria for PBT according to Regulation (EC) No 1907/2006, Annex XIII Contains a substance that meets the criteria for vPvB according to Regulation (EC) No 1907/2006, Annex XIII

## SECTION 3: Composition/information on ingredients

### 3.1. Substances <br> Not applicable

### 3.2. Mixtures

| Ingredient | Identifier(s) | $\%$ | Classification according to Regulation <br> (EC) No. 1272/2008 [CLP] |
| :--- | :--- | :--- | :--- |
| Functional silicon polymer | Trade Secret | $60-80$ | Substance not classified as hazardous |
| SILANE, TRIMETHOXY(2- <br> METHYLPROPYL)- | (CAS-No.) 18395-30-7 <br> (EC-No.) 242-272-5 | $10-30$ | Flam. Liq. 3, H226 <br> Skin Irrit. 2, H315 <br> STOT SE 3, H336 |
| Silane Monomer | (CAS-No.) 13497-18-2 <br> (EC-No.) 236-818-1 | $1-\quad 5$ | Skin Irrit. 2, H315 <br> Eye Irrit. 2, H319 |
| methanol | (CAS-No.) 67-56-1 <br> (EC-No.) 200-659-6 | $<0.25$ | Flam. Liq. 2, H225 <br> Acute Tox. 3, H331 <br> Acute Tox. 3, H311 <br> Acute Tox. 3, H301 <br> STOT SE 1, H370 |
| octamethylcyclotetrasiloxane | (CAS-No.) 556-67-2 <br> (EC-No.) 209-136-7 | $<0.1$ | Repr. 2, H361f <br> Aquatic Chronic 1, H410,M=10 <br> Flam. Liq. 3, H226 |

Please see section 16 for the full text of any H statements referred to in this section

## Specific Concentration Limits

| Ingredient | Identifier(s) | Specific Concentration Limits |
| :--- | :--- | :--- |
| methanol | (CAS-No.) 67-56-1 <br> (EC-No.) 200-659-6 | $(\mathrm{C}>=10 \%)$ STOT SE 1, H370 <br> $(3 \%=<\mathrm{C}<10 \%)$ STOT SE 2, H371 |

For information on ingredient occupational exposure limits or PBT or vPvB status, see sections 8 and 12 of this SDS

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

## Inhalation

Remove person to fresh air. If you feel unwell, get medical attention.

## Skin contact

Immediately wash with soap and water. Remove contaminated clothing and wash before reuse. If signs/symptoms develop, get medical attention.

## Eye contact

If exposed, flush eyes with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms develop, get medical attention.

## If swallowed

Rinse mouth. If you feel unwell, get medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

The most important symptoms and effects based on the CLP classification include:
Irritation to the skin (localized redness, swelling, itching, and dryness). Central nervous system depression (headache, dizziness, drowsiness, incoordination, nausea, slurred speech, giddiness, and unconsciousness).
4.3. Indication of any immediate medical attention and special treatment required Not applicable.

## SECTION 5: Fire-fighting measures

### 5.1. Extinguishing media

DO NOT USE WATER In case of fire: Use a fire fighting agent suitable for flammable liquids such as dry chemical or carbon dioxide to extinguish.

### 5.2. Special hazards arising from the substance or mixture

Closed containers exposed to heat from fire may build pressure and explode.

### 5.3. Advice for fire-fighters

Water may not effectively extinguish fire; however, it should be used to keep fire-exposed containers and surfaces cool and prevent explosive rupture. Wear full protective clothing, including helmet, self-contained, positive pressure or pressure demand breathing apparatus, bunker coat and pants, bands around arms, waist and legs, face mask, and protective covering for exposed areas of the head.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapours, in accordance with good industrial hygiene practice. Warning! A motor could be an ignition source and could cause flammable gases or vapours in the spill area to burn or explode. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

### 6.2. Environmental precautions

Avoid release to the environment. For larger spills, cover drains and build dykes to prevent entry into sewer systems or bodies of water.

### 6.3. Methods and material for containment and cleaning up

Contain spill. Cover spill area with a fire-extinguishing foam. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible using non-sparking tools. Place in a metal container approved for transportation by appropriate authorities. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Seal the container. Dispose of collected material as soon as possible.

### 6.4. Reference to other sections

Refer to Section 8 and Section 13 for more information

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Keep out of reach of children. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Take precautionary measures against
static discharge. Avoid breathing dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment. Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) Wear low static or properly grounded shoes. Use personal protective equipment (eg. gloves, respirators...) as required. To minimize the risk of ignition, determine applicable electrical classifications for the process using this product and select specific local exhaust ventilation equipment to avoid flammable vapour accumulation. Ground/bond container and receiving equipment if there is potential for static electricity accumulation during transfer.

### 7.2. Conditions for safe storage including any incompatibilities

Store in a well-ventilated place. Keep cool. Keep container tightly closed. Store away from heat. Store away from acids. Store away from oxidising agents.

### 7.3. Specific end use(s)

See information in Section 7.1 and 7.2 for handling and storage recommendations. See Section 8 for exposure controls and personal protection recommendations.

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

## Occupational exposure limits

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient | CAS Nbr <br> methanol | Agency <br> $67-56-1$ <br> Ireland OELs | Limit type <br> TWA 8 hours):260 mg/m3(200 Additional comments <br> ppm);TWA(8 hours):200 |
| :--- | :--- | :--- | :--- |
|  |  |  | ppm(260 mg/m3) |
| Ireland OELs : Ireland. OELs |  |  |  |

Ireland OELs : Ireland. OELs
TWA: Time-Weighted-Average
STEL: Short Term Exposure Limit
CEIL: Ceiling

## Biological limit values

No biological limit values exist for any of the components listed in Section 3 of this safety data sheet.
Recommended monitoring procedures:Information on recommended monitoring procedures can be obtained from Indust. Inspect./Ministry (IE)

### 8.2. Exposure controls

### 8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment. Use explosion-proof ventilation equipment.

### 8.2.2. Personal protective equipment (PPE)

## Eye/face protection

None required.

## Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing. Note: Nitrile gloves may be worn over polymer laminate gloves to improve dexterity.

Gloves made from the following material(s) are recommended:

| Material | Thickness (mm) | Breakthrough Time |
| :--- | :--- | :--- |
| Butyl rubber. | 0.5 | $=>8$ hours |
| Polymer laminate | $>0.30$ | $=>8$ hours |
| Fluoroelastomer | 0.4 | $4-8$ hours |

The glove data presented are based on the substance driving dermal toxicity and the conditions present at the time of testing. Breakthrough time may be altered when the glove is subjected to use conditions that place additional stress on the glove.

## Applicable Norms/Standards

Use gloves tested to EN 374

## Respiratory protection

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:
Half facepiece or full facepiece supplied-air respirator Organic vapour respirators may have short service life.

For questions about suitability for a specific application, consult with your respirator manufacturer.

## Applicable Norms/Standards

Use a respirator conforming to EN 140 or EN 136

## SECTION 9: Physical and chemical properties

| 9.1. Information on basic physical and chemical properties |  |
| :--- | :--- |
| Physical state | Liquid. |
| Colour | Colourless |
| Odor | Minty |
| Odour threshold | No data available. |
| Melting point/freezing point | Not applicable. |
| Boiling point/boiling range | $47.2^{\circ} \mathrm{C}$ |
| Flammability (solid, gas) | Not applicable. |
| Flammable Limits(LEL) | $0.92 \%$ volume |
| Flammable Limits(UEL) | $16^{\circ} \%$ volume |
| Flash point | $32^{\circ} \mathrm{C}[$ Test Method:Closed Cup $]$ |
| Autoignition temperature | $267^{\circ} \mathrm{C}$ |
| Decomposition temperature | No data available. |
| pH | substance/mixture is non-soluble (in water) |
| Kinematic Viscosity | 210 mm ${ }^{2} /$ sec |
| Water solubility | Immiscible |
| Solubility- non-water | No data available. |
| Partition coefficient: n-octanol/water | No data available. |
| Vapour pressure | No data available. |
| Density | $0.97 \mathrm{~g} / \mathrm{ml}$ |
| Relative density | 0.97 |
| Relative Vapour Density | $>1$ |

### 9.2. Other information

### 9.2.2 Other safety characteristics EU Volatile Organic Compounds

| Evaporation rate | $<1$ |
| :--- | :--- |
| Percent volatile | $20.2 \%$ [Test Method:Estimated] |

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

### 10.2 Chemical stability

Stable.

### 10.3 Possibility of hazardous reactions

Hazardous polymerisation will not occur.

### 10.4 Conditions to avoid

Heat.
Sparks and/or flames.

### 10.5 Incompatible materials

None known.

### 10.6 Hazardous decomposition products

Substance

## Condition

None known.

## SECTION 11: Toxicological information

The information below may not agree with the EU material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 11 are based on UN GHS calculation rules and classifications derived from internal hazard assessments.

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

## Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

## Inhalation

May be harmful if inhaled. Respiratory tract irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain. May cause additional health effects (see below).

## Skin contact

May be harmful in contact with skin. Skin Irritation: Signs/symptoms may include localised redness, swelling, itching, dryness, cracking, blistering, and pain. May cause additional health effects (see below).

## Eye contact

Contact with the eyes during product use is not expected to result in significant irritation.

## Ingestion

May be harmful if swallowed.
Gastrointestinal irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhoea. May cause additional health effects (see below).

## Additional Health Effects:

## Single exposure may cause target organ effects:

Central nervous system (CNS) depression: Signs/symptoms may include headache, dizziness, drowsiness, incoordination, nausea, slowed reaction time, slurred speech, giddiness, and unconsciousness.

## Reproductive/Developmental Toxicity:

Contains a chemical or chemicals which can cause birth defects or other reproductive harm.

## Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

## Acute Toxicity

| Name | Route | Species | Value |
| :---: | :---: | :---: | :---: |
| Overall product | Dermal |  | No data available; calculated ATE $>2,000-=5,000$ $\mathrm{mg} / \mathrm{kg}$ |
| Overall product | InhalationVapour(4 hr ) |  | No data available; calculated ATE $>20-=50 \mathrm{mg} / \mathrm{l}$ |
| Overall product | Ingestion |  | No data available; calculated ATE $>2,000-=5,000$ $\mathrm{mg} / \mathrm{kg}$ |
| SILANE, TRIMETHOXY(2-METHYLPROPYL)- | Dermal | Professio nal judgeme nt | LD50 estimated to be 2,000-5,000 mg/kg |
| SILANE, TRIMETHOXY(2-METHYLPROPYL)- | InhalationVapour (4 hours) | Rat | LC50 > $11 \mathrm{mg} / 1$ |
| SILANE, TRIMETHOXY(2-METHYLPROPYL)- | Ingestion | Rat | LD50 $>2,000 \mathrm{mg} / \mathrm{kg}$ |
| Silane Monomer | Dermal | Rat | LD50 > 2,000 mg/kg |
| Silane Monomer | Ingestion | Rat | LD50 $3,657 \mathrm{mg} / \mathrm{kg}$ |
| methanol | Dermal |  | LD50 estimated to be $1,000-2,000 \mathrm{mg} / \mathrm{kg}$ |
| methanol | InhalationVapour |  | LC50 estimated to be $10-20 \mathrm{mg} / 1$ |
| methanol | Ingestion |  | LD50 estimated to be $50-300 \mathrm{mg} / \mathrm{kg}$ |
| octamethylcyclotetrasiloxane | Dermal | Rat | LD50 > 2,400 mg/kg |
| octamethylcyclotetrasiloxane | InhalationDust/Mist (4 hours) | Rat | LC50 $36 \mathrm{mg} / \mathrm{l}$ |
| octamethylcyclotetrasiloxane | Ingestion | Rat | LD50 > 5,000 mg/kg |

ATE $=$ acute toxicity estimate

## Skin Corrosion/Irritation

| Name | Species | Value |
| :--- | :--- | :--- |
| SILANE, TRIMETHOXY(2-METHYLPROPYL)- | Rabbit | Irritant |
| Silane Monomer | Rabbit | Irritant |
| methanol | Rabbit | Mild irritant |
| octamethylcyclotetrasiloxane | Rabbit | Minimal irritation |

## Serious Eye Damage/Irritation

| Name | Species | Value |
| :--- | :--- | :--- |
| SILANE, TRIMETHOXY(2-METHYLPROPYL)- | Rabbit | No significant irritation |
| Silane Monomer | Rabbit | Severe irritant |
| methanol | Rabbit | Moderate irritant |
| octamethylcyclotetrasiloxane | Rabbit | No significant irritation |

## Skin Sensitisation

| Name | Species | Value |
| :--- | :--- | :--- |
| SILANE, TRIMETHOXY(2-METHYLPROPYL)- | Guinea <br> pig | Not classified |
| Silane Monomer | Guinea <br> pig | Not classified |
| methanol | Guinea <br> pig | Not classified |
| octamethylcyclotetrasiloxane | Human <br> and <br> animal | Not classified |

## Respiratory Sensitisation

For the component/components, either no data is currently available or the data is not sufficient for classification.
Germ Cell Mutagenicity

| Name | Route | Value |
| :--- | :--- | :--- |
| SILANE, TRIMETHOXY(2-METHYLPROPYL)- | In Vitro | Not mutagenic |
| SILANE, TRIMETHOXY(2-METHYLPROPYL)- | In vivo | Not mutagenic |
| Silane Monomer | In Vitro | Not mutagenic |
| methanol | In Vitro | Some positive data exist, but the data are not <br> sufficient for classification |
| methanol | In vivo | Some positive data exist, but the data are not <br> sufficient for classification |
| octamethylcyclotetrasiloxane | In Vitro | Some positive data exist, but the data are not <br> sufficient for classification |

## Carcinogenicity

| Name | Route | Species | Value |
| :--- | :--- | :--- | :--- |
| methanol | Inhalation | Multiple <br> animal <br> species | Not carcinogenic |

## Reproductive Toxicity

## Reproductive and/or Developmental Effects

| Name | Route | Value | Species | Test result | Exposure <br> Duration |
| :--- | :--- | :--- | :--- | :--- | :--- |
| methanol | Ingestion | Not classified for male reproduction | Rat | NOAEL <br> 1,600 <br> mg/kg/day | 21 days |
| methanol | Ingestion | Toxic to development | Mouse <br> 4,000 <br> mg/kg/day | during <br> organogenesis |  |
| methanol | Inhalation | Toxic to development | Mouse | NOAEL 1.3 <br> mg/l | during <br> organogenesis |
| octamethylcyclotetrasiloxane | Inhalation | Not classified for male reproduction | Rat | NOAEL 8.5 <br> mg/l | 2 generation |
| octamethylcyclotetrasiloxane | Ingestion | Toxic to female reproduction | Rabbit | NOAEL 50 <br> mg/kg/day | during <br> organogenesis |
| octamethylcyclotetrasiloxane | Inhalation | Toxic to female reproduction | Rat | NOAEL 3.6 <br> mg/l | 2 generation |

## Target Organ(s)

Specific Target Organ Toxicity - single exposure

| Name | Route | Target Organ(s) | Value | Species | Test result | Exposure <br> Duration |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| SILANE, <br> TRIMETHOXY(2- <br> METHYLPROPYL)- | Inhalation | central nervous <br> system depression | May cause drowsiness or <br> dizziness | Rat | NOAEL not <br> available |  |

| SILANE, <br> TRIMETHOXY(2- <br> METHYLPROPYL)- | Inhalation | respiratory irritation | Some positive data exist, but the data are not sufficient for classification | similar health hazards | NOAEL not available |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| SILANE, TRIMETHOXY(2-METHYLPROPYL)- | Ingestion | central nervous system depression | May cause drowsiness or dizziness | Rat | NOAEL not available |  |
| Silane Monomer | Inhalation | respiratory irritation | Some positive data exist, but the data are not sufficient for classification | similar health hazards | NOAEL not available |  |
| methanol | Inhalation | blindness | Causes damage to organs | Human | NOAEL Not available | occupational exposure |
| methanol | Inhalation | central nervous system depression | May cause drowsiness or dizziness | Human | NOAEL Not available | not available |
| methanol | Inhalation | respiratory irritation | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL Not available | 6 hours |
| methanol | Ingestion | blindness | Causes damage to organs | Human | NOAEL Not available | poisoning and/or abuse |
| methanol | Ingestion | central nervous system depression | May cause drowsiness or dizziness | Human | NOAEL Not available | poisoning and/or abuse |

## Specific Target Organ Toxicity - repeated exposure

| Name | Route | Target Organ(s) | Value | Species | Test result | Exposure <br> Duration |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| methanol | Inhalation | liver | Not classified | Rat | NOAEL 6.55 $\mathrm{mg} / 1$ | 4 weeks |
| methanol | Inhalation | respiratory system | Not classified | Rat | NOAEL 13.1 mg/l | 6 weeks |
| methanol | Ingestion | liver \| nervous system | Not classified | Rat | $\begin{aligned} & \text { NOAEL } \\ & 2,500 \\ & \mathrm{mg} / \mathrm{kg} / \text { day } \\ & \hline \end{aligned}$ | 90 days |
| octamethylcyclotetrasiloxa ne | Dermal | hematopoietic system | Not classified | Rabbit | NOAEL 960 mg/kg/day | 3 weeks |
| octamethylcyclotetrasiloxa ne | Inhalation | liver | Not classified | Rat | NOAEL 8.5 mg/l | 13 weeks |
| octamethylcyclotetrasiloxa ne | Inhalation | endocrine system immune system \| kidney and/or bladder | Not classified | Rat | NOAEL 8.5 $\mathrm{mg} / \mathrm{l}$ | 2 generation |
| octamethylcyclotetrasiloxa ne | Inhalation | hematopoietic system | Not classified | Rat | $\begin{aligned} & \text { NOAEL } 8.5 \\ & \mathrm{mg} / \mathrm{l} \\ & \hline \end{aligned}$ | 13 weeks |
| octamethylcyclotetrasiloxa ne | Ingestion | liver | Not classified | Rat | $\begin{aligned} & \text { NOAEL } \\ & 1,600 \\ & \mathrm{mg} / \mathrm{kg} / \text { day } \\ & \hline \end{aligned}$ | 2 weeks |

## Aspiration Hazard

For the component/components, either no data is currently available or the data is not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

### 11.2. Information on other hazards

This material does not contain any substances that are assessed to be an endocrine disruptor for human health.

## SECTION 12: Ecological information

The information below may not agree with the EU material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 12 are based on UN GHS calculation rules and classifications derived from 3M assessments.

### 12.1. Toxicity

No product test data available.

| Material | CAS \# | Organism | Type | Exposure | Test endpoint | Test result |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

### 12.4. Mobility in soil

| Material | Cas No. | Test type | Study Type | Test result | Protocol |
| :--- | :--- | :--- | :--- | :--- | :--- |
| SILANE, <br> TRIMETHOXY(2- <br> METHYLPROPYL)- | $18395-30-7$ | Transformation <br> product Mobility <br> in Soil | Koc | $2.81 / \mathrm{kg}$ |  |
| SILANE, <br> TRIMETHOXY(2- <br> METHYLPROPYL)- | $18395-30-7$ | Transformation <br> product Mobility <br> in Soil | Koc | $2001 / \mathrm{kg}$ | Episuite ${ }^{\mathrm{TM}}$ |
| SILANE, <br> TRIMETHOXY(2- <br> METHYLPROPYL)- | $18395-30-7$ | Modeled Mobility <br> in Soil | Koc | $2,0001 / \mathrm{kg}$ | Episuite TM |
| Silane Monomer | $13497-18-2$ | Experimental <br> Mobility in Soil | Koc | $\leq 15741 / \mathrm{kg}$ | OECD 106 Adsp-Desb Batch <br> Equil |
| methanol | Experimental <br> Mobility in Soil | Koc | $0.131 / \mathrm{kg}$ |  |  |
| octamethylcyclotetrasiloxa <br> ne | $556-67-2$ | Experimental <br> Mobility in Soil | Koc | $16,6001 / \mathrm{kg}$ | OECD 106 Adsp-Desb Batch <br> Equil |

### 12.5. Results of the PBT and vPvB assessment

| Ingredient | CAS Nbr | PBT/vPvB status |
| :--- | :--- | :--- |
| octamethylcyclotetrasiloxane | $556-67-2$ | Meets REACH PBT criteria |
| octamethylcyclotetrasiloxane | $556-67-2$ | Meets REACH PBT criteria |

### 12.6. Endocrine disrupting properties

This material does not contain any substances that are assessed to be an endocrine disruptor for environmental effects

### 12.7. Other adverse effects

No information available.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

Dispose of contents/ container in accordance with the local/regional/national/international regulations.
Incinerate in a permitted waste incineration facility. As a disposal alternative, utilize an acceptable permitted waste disposal facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated $\&$ disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

The coding of a waste stream is based on the application of the product by the consumer. Since this is out of the control of the manufacturer, no waste code(s) for products after use will be provided. Please refer to the European Waste Code (EWC $2000 / 532 / \mathrm{CE}$ and amendments) to assign the correct waste code to your waste stream. Ensure national and/or regional regulations are complied with and always use a licensed waste contractor

```
EU waste code (product as sold)
    070601* Aqueous washing liquids and mother liquors
    0804 09* Waste adhesives and sealants containing organic solvents or other dangerous substances
```

## SECTION 14: Transportation information

|  | $\begin{aligned} & \text { Ground Transport } \\ & \text { (ADR) } \end{aligned}$ | Air Transport (IATA) | $\begin{array}{ll} \hline \text { Marine } & \text { Transport } \\ \text { (IMDG) } \end{array}$ |
| :---: | :---: | :---: | :---: |
| 14.1 UN number or ID number | UN1993 | UN1993 | UN1993 |
| 14.2 UN proper shipping name | FLAMMABLE LIQUID, N.O.S.(METHYL ALCOHOL) | $\begin{aligned} & \text { FLAMMABLE LIQUID, } \\ & \text { N.O.S.(METHYL ALCOHOL) } \end{aligned}$ | $\begin{aligned} & \text { FLAMMABLE LIQUID, } \\ & \text { N.O.S.(METHYL } \\ & \text { ALCOHOL) } \end{aligned}$ |
| 14.3 Transport hazard class(es) | 3 | 3 | 3 |
| 14.4 Packing group | III | III | III |
| 14.5 Environmental hazards | Not Environmentally Hazardous | Not applicable | Not a Marine Pollutant |
| 14.6 Special precautions for user | Please refer to the other sections of the SDS for further information. | Please refer to the other sections of the SDS for further information. | Please refer to the other sections of the SDS for further information. |
| 14.7 Marine Transport in bulk according to IMO instruments | No data available. | No data available. | No data available. |
| Control Temperature | No data available. | No data available. | No data available. |
| Emergency Temperature | No data available. | No data available. | No data available. |
| ADR Classification Code | F1 | Not applicable. | Not applicable. |
| IMDG Segregation Code | Not applicable. | Not applicable. | NONE |

Please contact the address or phone number listed on the first page of the SDS for additional information on the transport/shipment of the material by rail (RID) or inland waterways (ADN).

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Restrictions on the manufacture, placing on the market and use:
The following substance(s) contained in this product is/are subject through Annex XVII of REACH regulation to restrictions
on the manufacture, placing on the market and use when present in certain dangerous substances, mixtures and articles. Users of this product are required to comply with the restrictions placed upon it by the aforementioned provision.

| $\underline{\text { Ingredient }}$ | $\underline{\text { CAS Nbr }}$ |
| :--- | :--- |
| methanol | $67-56-1$ |
| octamethylcyclotetrasiloxane | $556-67-2$ |

Restriction status: listed in REACH Annex XVII
Restricted uses: See Annex XVII to Regulation (EC) No 1907/2006 for Conditions of Restriction

## Authorization status under REACH:

The following substance/s contained in this product might be or is/are subject to authorization in accordance with REACH:

## Ingredient

octamethylcyclotetrasiloxane

CAS Nbr
556-67-2

Authorization status: listed in the Candidate List of Substances of Very High Concern for Authorization

## Global inventory status

Contact manufacturer for more information The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

## DIRECTIVE 2012/18/EU

Seveso hazard categories, Annex 1, Part 1

| Hazard Categories | Qualifying quantity (tonnes) for the application of |  |
| :--- | :--- | :--- |
|  | Lower-tier requirements | Upper-tier requirements |
| P5c FLAMMABLE LIQUIDS* | 5000 | 50000 |

*If maintained at a temperature above its boiling point or if particular processing conditions, such as high pressure or high temperature, may create major-accident hazards, P5a or P5b FLAMMABLE LIQUIDS may apply

Seveso named dangerous substances, Annex 1, Part 2

| Dangerous Substances | Identifier(s) | Qualifying quantity (tonnes) for the application of |  |
| :--- | :--- | :--- | :--- |
|  |  | Lower-tier requirements | Upper-tier requirements |
| methanol | $67-56-1$ | 500 | 5000 |
| octamethylcyclotetrasiloxane | $556-67-2$ | 100 | 200 |

## Regulation (EU) No 649/2012

No chemicals listed

### 15.2. Chemical Safety Assessment

A chemical safety assessment has not been carried out for this substance/mixture in accordance with Regulation (EC) No 1907/2006, as amended.

## SECTION 16: Other information

## List of relevant H statements

H225
H226
H301
H311
H315
H319

Highly flammable liquid and vapour.
Flammable liquid and vapour.
Toxic if swallowed.
Toxic in contact with skin.
Causes skin irritation.
Causes serious eye irritation.

| H331 | Toxic if inhaled. |
| :--- | :--- |
| H336 | May cause drowsiness or dizziness. |
| H361f | Suspected of damaging fertility. |
| H370 | Causes damage to organs. |
| H410 | Very toxic to aquatic life with long lasting effects. |
| H412 | Harmful to aquatic life with long lasting effects. |

## Revision information:

Section 01: SAP Material Numbers information was added.
Section 14 Classification Code - Regulation Data information was modified.
Section 14 Hazard Class + Sub Risk - Regulation Data information was modified.
Section 14 Hazardous/Not Hazardous for Transportation information was modified.
Section 14 Other Dangerous Goods - Regulation Data information was modified.
Section 14 Packing Group - Regulation Data information was modified.
Section 14 Proper Shipping Name information was modified.
Section 14 Segregation - Regulation Data information was modified.
Section 14 UN Number Column data information was modified.
DISCLAIMER: The information on this Safety Data Sheet is based on our experience and is correct to the best of our knowledge at the date of publication, but we do not accept any liability for any loss, damage or injury resulting from its use (except as required by law). The information may not be valid for any use not referred to in this Data Sheet or use of the product in combination with other materials. For these reasons, it is important that customers carry out their own test to satisfy themselves as to the suitability of the product for their own intended applications. In addition, this SDS is being provided to convey health and safety information. If you are the importer of record of this product into the European Union, you are responsible for all regulatory requirements, including, but not limited to, product registrations/notifications, substance volume tracking, and potential substance registration.
